SERIOUS ACCIDENT .- We learn that a young girl named Maggie Bush, employed in the paper mill of Meade & Weston, met with a serious accident this morning. She was standing under the hatchway, while the work men were engaged in raising a bate of rag, to the upper story of the building, when the hale fell, striking the girl and throwing her violently against a post near by. Her skull was badly fractured, and her recovery from the injury is considered doubtful.

Somes Deauatique.-The entertainmen on Saturday night was enthusiastically received by a large and delighted audience. The thrilling play of the "Castle Scoptre" was puupon the stage in magnificent style, and the part of "Angela" was beautifully and artiscally rendered by Mrs. Perry. She never fails to win the highest encomiums of the audience. The active company performed their respective parts to admiration, and the play throughout was a complete success Mr. Coles, in the "Fat Boy," the concluding piece, won "fresh laurela."

To-night, for the first time here, will be performed the great drams of "The Phantom," in which Mes. Perry and Mr. Coles will sustain the leading characters. The presents tion of this splendid and thrilling play has been received with the greatest cuthusiasu every where, and we have no doubt it will Coat. wood, Lime, Coment & Produce create a furore never before witnessed by the create a furore never before witnessed by the patrons of the drama here. Manager Fredericks has exerted himself to give the piece a scenic effect hitherto unsurpassed on the boards of a Dayton theatre. He never disappoints. The entertainment will conclude with "Engagements by Sea and Land," We predict the largest house of the season.

The Methodist meeting bouse, on Third Street, heretofore known as "Wesley Chapel," about to be remodelled into business houses Mr. Riefer, who recently porchased the building, commenced operations this morning, and has a force of workmen engaged on the premines. We understand that it is his inention to construct two capacious business rooms in the lower story, and that the upper portion of the building will be fitted up as a public hall for lectures, concerts, &c. The town-clock, in the tower of the building, ceased to "note departing time" several days ago.
